

Electric Blower
680W

1205

- Efficient 680W motor provides a significant amount of air force for both blowing and vacuuming functions
- 2 tools in one, quickly convert to a vacuum cleaner for added versatility
- Adjustable speed settings enable working with different blowing air rate in order to adapt to different kinds of applications
- Vortex design of fan blades will impressively increase the air force
- Strong design suitable for applications in the workshop and on the construction site
- Light weight design and portable device enables convenient use
- Ergonomic design and non-slip handle provide convenient handling during operation
- Heat dissipation system ensures faster cooling and longer lifetime
- Lock button for convenient continuous operation

Model	1205
Power	680W
Voltage	220-240V
Frequency	50-60Hz
No-Load Speed	0-16000RPM
Blowing Rate	0-4.1 m3/min
Weight	1.91Kg
Supplied in	Ronix Color Box
Includes	Blowing Pipe, Dust bag, Pair of Carbon Brushes
