

Industrial Blower
500W

1206

- Efficient 500W motor provides a significant amount of air force for both blowing and vacuuming functions
- 2 tools in one, quickly convert to a vacuum cleaner for added versatility
- 6 different speed settings enable working with different blowing air rate in order to adapt to different kinds of applications
- Vortex design of fan blades will impressively increase air force
- Strong design suitable for applications in the workshop and on the construction site
- Lightweight design, ABS thermoplastic polymer housing enables convenient use
- Ergonomic design and non-slip handle provide convenient handling during operation
- Heat dissipation system ensures faster cooling and longer lifetime
- Lock button for convenient continuous operation

Model	1206
Power	500W
Voltage	220-240V
Frequency	50-60Hz
No Loads of Speed	0-13000RPM
Maximum Air Flow	2.3m ³ /min
Weight	1.7kg
Supplied In	Ronix Color box
Includes	Blow rubber tube, Dust collection bag, a Pair of carbon brushes
