

Electric Blower
600W

1209

- Efficient 600W motor provides a significant amount of air force for both blowing and vacuuming functions
- 2 tools in one, quickly convert to a vacuum cleaner for added versatility
- 6 different speed settings enable working with different blowing air rate in order to adapt to different kinds of applications
- Vortex design of fan blades will impressively increase the air force
- Strong design suitable for applications in the workshop and on the construction site
- Light weight design, handy housing enables convenient use
- Ergonomic design provide convenient handling during operation
- Heat dissipation system ensures faster cooling and longer lifetime
- Lock button for convenient continuous operation

Model	1209
Temperature	50-600 Degree
Weight	0.84 Kg
Includes	Nozzles (3pcs), Scraper tool
Voltage	220-240V
Power	2000W
Air flow	50°C, 250 L/min 50-450°C, 250 L/min 90-600°C500 L/min
Supplied In	Ronix color box
Frequency	50-60 Hz
