

Wet & Dry Vacuum Cleaner

40L, 1400W

1240

- High-power industrial 1400W motor provides just the amount of suction needed to most any cleanup job
- Design for both vacuum and blow functions
- Best-in-class suction power and air flow easily tackles tough jobs around the jobsite, shop or in the garage
- 40 liter capacity to get the job done whether big or small
- With this versatile vacuum cleaner you can vacuum both wet and dry debris, dust, saw, dirt or blow leaves away
- Equipped with HEPA filter which prevent entering particles whose diameter is more than 0.3 μm to help extend the life of the motor and provides more efficient cleaning
- Durable and tough stainless steel tank and cart design allow for extra stability, storage, and maneuverability
- Integrated hose, accessory and power cord organization provide space saving, convenient, and hassle-free storage
- Suitable for tackling all types of dry and damp for indoor and outdoor usage
