

Rotary Hammer Drill
26mm-800W

2701

- High performance rotary hammer drill with 4 functions: drilling, hammer drilling, chiseling, and releasing
- Large capacity cylinder for stronger 3J impact energy and more efficiency
- 360° auxiliary Ronix-design handle minimizes vibration and enables continuous low-fatigue work
- SDS plus bit system provides tool free bit changes with automatic bit locking and maximum impact energy transfer
- Lock button switch for comfortable working in continuous operations
- Safety torque clutch system designed to guarantee operator's wrist during high torque force
- Die-cast aluminum housing enables lightweight, superior heat dissipation and enhances body strength

Model	2701
Power	800W
Voltage	220-240
Frequency	50-60HZ
Chuck Size	26mm
Chuck Type	SDS Plus
Impact Energy	3J
Max Capacity in Wood	30mm
Max Capacity in Steel	13mm
Max Capacity in Concrete	26mm
Weight	2.6kg
Includes	Scale bar, (1) SDS plus drill bit 7×150, (1) SDS plus drill bit 8×150, (1) SDS plus drill bit 10×150, (1) SDS plus drill bit 12×150
