

Demolition Hammer

1750W

2802

- 1750W robust motor brings the impact force of 48J which is most suitable in vertical operations
- The extraordinary demolition speed
- Compact streamline design makes it ideal for light chiselling applications in brick, light masonry and occasionally in concrete
- HEX toolholder with robust power can impressively enhance demolition performance
- High quality special grease lubricating system secures durability and longer lifetime
- Die-cast magnesium alloy housing enables light weight, superior heat dissipation and enhances body strength
- Extensive soft grip impressively reduces fatigue during long hours of working
- Switch lock function can protect the armature in continuous operations
- Power indication light
- Service reminder light
- Double Anti-Vibration System to minimize the reflection of the impact energy
- Large and longer impact construction

Model	2802
Power	1750W
Voltage	220-240V
Frequency	50-60Hz
Impact Energy	48J
Max Impact Rate	1500BPM
Weight	15.5kg
Supplied in	Ronix Wheelchair BMC
Includes	Auxiliary Ronix-design handle, Grease tube, Hex flat chisel bit 30x410mm, Hex pointed chisel bit 410mm, wiping cloth
