

Mini Angle Grinder
1200W, 3000-11000RPM

3161V

- High power heavy duty 1200W motor that delivers up to 11000 RPM no-load of speed
- 2 positions ergonomic side handle which promoting easy work and perfect machine control in different range of oper movements
- Direct motor cooling system which allows higher industrial operation capabilities and protecting armature
- Variable speed setting regulates the speed to adapt to the operator's needs
- Regular wheel guard
- Easy and fast carbon brush changing mechanism
- New locking pin system for easy and fast disc changing and safety mechanism
- Anti-dust switch which reduces dust penetration, especially in construction usages

Model	3161V
Power	1200W
Voltage	110V
Frequency	50-60Hz
No-Load Speed	3000 -11000 RPM
Wheel Diameter	115mm
Spindle Size	M14
Weight	2.05kg
Supplied In	Ronix color box
Includes	Ronix-design side handle, Protection guard,Spanner
