

**Electric Table Saw**  
**1200W**

**5602**

- Powerful 1200W motor delivers 4800 RPM for maximum productivity and top performances in different functions
- Made from high quality material which secures precise cutting in different angles and applications
- Adjustable dual side guards with new design, facilitates cutting in different functions
- Large on and off Switch
- Saw blade enclosed underneath the table to protect the blade during transport
- New guard design allows the operator to view the blade as it contacts the material
- Plastic machined table top remains flat and true for accurate cuts
- Powerful 1200W motor delivers 4800 RPM for maximum productivity and top performances in different functions

Model	5602
Power	1200W
Voltage	220-240V
Frequency	50Hz
No-Load Speed	4800RPM
Disk Diameter	210mm
Tilt Range	0° To 45°
Max Capacity Cutting	0°: 51mm, 45°: 35mm
Table Size	525x445mm
Blade Size	φ210×φ30×2.6mm
Table Material	Plastic (ABS)
Supplied in	Ronix Color Box
Weight	10Kg
Total Length	525mm (work table)
Includes	Saw blade 1pc, angle ruler 1set, guide ruler 1set, wrench 2pcs, push rod 1pc
