

Scroll Saw
120W

5701

- Powerful 120W motor for maximum productivity and top performances in different functions
- Made from high quality material which secures precise cutting in different angles and applications
- Variable speed goes from 400RPM -1600RPM strokes per minute
- Large on and off Switch
- New guard design allows the operator to view the blade as it contacts the material
- Cuts wood up to 50 mm thickness in the standard position
- Connected with a flexible shaft for use in various applications
- Equipped with LED light to increase cutting accuracy

Model	5701
Power	120W
Voltage	220-240V
Frequency	50-60Hz
Idling Speed Range	400-1600RPM
Blade Length	125mm
Motor Type	Magnetic Steel Motor
Blade Material	60Si2Mn
Cutting Depth	0°: 50mm, 45°: 23mm
Base Plate Size	400x245x95mm
Tilt Range	0° To 45°
Table Material	steel
Cutting Size	406 mm
Total Length (mm)	415mm (work table)
Weight	11Kg
Supplied in	Ronix Color Box
Includes	Saw blade 1pc assembled with machine, soft shaft 1set, wrench 1pc
