

## Ratchet Handle

# RH-2633

- Heavy duty straight ratchet handle which is fully reversible
- Quick release drive head with spring loaded ball bearings for locking sockets
- High-quality, made from heat-treated chrome-vanadium steel for durable and long-time use
- Anti-slip and anti-oil soft grip handle for better control during operation
- 180-degree flexible head that allows you to easily reach fasteners at almost any angle
- Chrome-plated surface for the optimum corrosion protection
- A quick-release button on the back of the ratchet head allows effortless socket removal
- 72-tooth reversible ratcheting mechanism that only needs a 5-degree arc to operate and drive direction
- Its new design allows the ease of movement in tight and confined places
