

Pruning Shear
Slider

RH-3104

- Rust-resistant stainless steel blades which are extremely sharp and durable for easy and smooth cuts
- Easy action hardened spring gently opens blades after each cut to minimize fatigue
- Ergonomic non-slip PP+TPR handle increases comfort and provides less fatigue during longtime jobs
- Sharp, high-grade hardness blades ensure quick and precision cuts, suitable for light branches of trees, rose bushes, shrubs, etc.
- Easily-opened locking mechanism keeps the sharp blades securely closed when not in use which minimizes the accidental injuries
- Made in Taiwan

Model	RH-3104
