

PVC Pipe Cutter

RH-3203

- The blade is made of high-quality stainless steel, with high hardness, strong shear force and high durability
- Die-cast Aluminum body design secures lightweight and higher efficiency
- The specially designed jaws on this PVC pipe cutter hold the pipe in place for straight, easy cuts
- Comfortable, ergonomic handles that provide a reliable grip in heavy-duty operations
- Equipped with safe lock that close the cutter when it is not in use which makes it safe, portable and easy to work
- A fast release button allows true 1-handed operation and maximum performance
- Essential for home handyman, plumbers, electricians, and vehicle mechanics
- Commonly used for cutting most kinds of plastic (PVC, CPVC, PP, PEX, PE, rubber hose) and multilayer tubing
