

**Caulking Gun**  
**9", 1800N, 0.8mm**

**RH-4007**

- Made of durable aluminum alloy and casting steel for extra durability
- Equipped with full size handle designed makes the work comfort and efficient
- Anti-drip mechanism: Instantly stops material from dripping upon trigger release
- High Efficiency and Smooth Flowing Mechanical Advantage for most of Medium-High Viscosity Materials
- Durable and Dependable Structure Design- an instant pressure release tab, to prevent excess caulk leakage and a pressure plate that converts from sausage packs to cartridges in seconds.

Model	RH-4007
size	9 inches
Handle Material	Aluminum alloy
Thickness of Aluminum Tube	0.8mm
Trigger Material	Aluminum alloy
Thrust Ratio	12.1
Pushing Power	>1800N
Round push rod diameter	7.8mm
Weight	540g
