

Concrete Drill Bit

RH-5920

- Long-lasting, heavy-duty, Tungsten Carbide SDS-PLUS drill bits for easy & reliable drilling into deep heavy-duty masonry, reinforced concrete, tile, brick & cinder block
- SDS hammer drill bits feature 2-flute self-centering carbide tip ensuring fast cut speed and maximum lifetime
- The Ronix SDS-Plus drill bit flute is specially designed to allow the maximal amount of concrete removal for both ease of use and effectiveness in concrete/masonry drilling
- Ronix SDS-PLUS drill bits are heat forged for strength and longevity with a sharp Carbide tip edge, designed for maximum impact on masonry/concrete material, allowing effective and precise drilling
- Ideal for general contractors and construction industry that require heavy-duty SDS-PLUS bits for reliable anchoring and making sturdy holes with all SDS-Plus rotary hammers

Model	RH-5920
Size	6.0mm
Length	160mm
Body Material	Steel
Tip Material	Tungsten Carbide
Shank Type	SDS-PLUS
Supplied In	Individual Plastic Pouch
