

**Electric Heat gun**

**2000W- 4 Nozzles**

**1106**

- Type Three speed intelligent temperature adjustment heat gun
- Powerful 2000 W, 3 -speed heat gun with variable heat control giving maximum control in all heat gun applications
- SCRUB motor and the shell is treated with PP and fiber
- Imported ceramic heating core/insulation heating wire
- Easy to carry, easy to operate in small space
- Powerful heat gun kit for all applications, ideal for stripping paint, varnish, adhesives and a variety of other applications
- Ergonomically designed non-slip handle

|                          |  |
|--------------------------|--|
| Model                    | 1106   |
| Power                    | 2000W  |
| Frequency                | 50-60HZ  |
| Voltage                  | 220-240V   |
| Working current          | 8A   |
| Body material            | PP+GF30  |
| Operating temperature    | 60-600°C   |
| Noise level              | 50-60dB  |
| Motor type               | SCRUB Brushed Motor  |
| Air volume & temperature | 1:250L/min 60-600°C<br>2:500L/min 100-600°C<br>3:500L/min 600°C  |
| Weight                   | 0.74Kg   |
| Heating element type     | Insulated Heat Core  |
| Supplied in              | Color box  |
| Includes                 | 1pc Protective cover against high temperature and scald, 1pc Defector nozzle, 1pc Reflector nozzle, 1pc Concentrator Nozzle, 1pc Glass Protection Nozzle |
| Cable length             | 1M   |
| Weight                   | 0.614Kg  |
| Included in              | 1M Type-C USB cable a tripod   |
| Supplide in              | Color box  |
