

## 80L Industrial Vacuum Cleaner 3000W

**1280**

- High-power 3x1000W industrial motor provides the suction needed for most cleanup tasks.
- 80-liter capacity is ideal for both large and small cleanup tasks.
- Designed for both wet and dry vacuuming functions.
- Best-in-class suction power and airflow handle tough jobs on the job site, in the shop, or in the garage.
- Versatile vacuum cleaner capable of handling wet and dry debris, dust, sawdust, and dirt.
- Equipped with a cotton filter to prevent particles from entering, extending motor life, and ensuring more efficient cleaning.
- Durable stainless steel tank and cart design offer extra stability, storage, and maneuverability.
- Suitable for tackling all types of dry and damp materials for both indoor and outdoor use.
