

Concrete Vibrator
1200w

2420

- 1200 watt motor, overheat-proof, designed for continuous operation, impact-resistant motor housing
- 1200w concrete vibrator, bottle vibrator, stirring wave speed 4000rpm, rod head 35mm, rod core 10mm
- The robust pistol-shaped handle is very handy as well as durable
- Concrete vibrator is a highly effective concrete vibrator, which makes the work particularly easier for you to concrete and provides perfect results
- The air trapped during concreting is driven to the surface by the vibrator. This is done by inserting vibrations into the fresh concrete, which in this way becomes firm and frost-proof

Model	2420
Power	1200W
Voltage	220-240V
Frequency	50-60Hz
Material	Plastic, Aluminum
Speed	4000 RPM
Drive Dimension	35mm
Hose material	Rubber
Weight	2.4Kg
Packaging	Color box
Accessories	Carbon Brush 1 pair
