

D Type Impact Drill
16mm-1100W

2430

- This hammer drill has a power of 1100W and a maximum capacity of 45000 beats per minute and 2800 revolutions per minute, its powerful beats are capable of destroying a concrete slab
- The handles of the hammer drill are vibration-damping, which allows the machine to absorb shocks and reduce fatigue even during heavy work. The soft handles of the machine provide better manoeuvrability to ensure optimal grip
- The hammer drill is ideal for occasional work thanks to its 3 functions: drilling (wood up to 40 mm and metal 16 mm), drilling with impact (concrete or brick up to 26 mm), chiselling or chiselling with free accessories that allow free adaptation to the course of the ground, e.g. when removing tiles
- The pusher is equipped with a variable speed drive, so that the drilling speed can be easily adjusted. It can also be used in continuous operation to facilitate drilling in hard or hard-to-reach materials

Model	2430
Gross weight	4.25Kg
Voltage	220V-240V
Chuck Size	16mm
Body Material	PA6+GF30
Chuck Type	Keyed chuck
Impact Rate	0-45000BPM
Frequency	50-60Hz
Max. Power	1100W
Net Weight	3.75Kg
Supplide in	Color box
No Loads of Speed	0-1400/0-2800RPM
Drilling Capacity (wood, metal, masonry)	40mm-16mm-26mm
Dimension	410mm-85mm- 200mm
Includes	Depth gauge 1PC Wrench 1PC Carbon brush 1pair Side handle 1PC
