

Rotary Hammer

1350W-48mm

2748

- The high-performance motor enables the rotary hammer to deliver up to 155-310RPM, 1500-3000BPM and 15J of impact energy
- High performance rotary hammer drill with 3 functions: has hammer drill, chisel and chisel alignment settings three modes
- 360° anti-shock auxiliary Ronix-design handle
- SDS Max tool-free bit system with automatic bit locking mechanism
- one-touch sliding chuck for SDS-Plus bits is used for quick and easy bit removal and installation
- This rotary hammer has a torque limiting clutch, which is engineered to automatically disengage gears if the bit binds, eliminating sudden high-torque reaction and preventing gear damage
- Lock button switch for comfortable working in continuous operations
- Cable-protecting ball joint for optimal freedom of motion when working
- Safety torque clutch system for high protection
