

Rotary Hammer 1700W-55mm

2755

- Delivers high performance for rotary drilling and hammering
- Generates 5-19 J of impact force for effortless penetration into concrete and masonry
- Anti-Vibration System reduces hand fatigue with an ergonomic soft-grip handle and internal damping mechanism
- Enables fast and secure bit changes for enhanced efficiency and convenience
- Reinforced housing ensures durability for prolonged use in demanding job sites
- Allows precise speed adjustment to match different materials and tasks
- Ensures smooth and controlled operation, reducing sudden jerks
- Provides efficient heat dissipation for prolonged tool lifespan

Model	2755
Motor Type	Series Motor
Power Input	1700W
Frequency	50/60Hz
Voltage	220-240V~
Impact Energy	5-19J
No-Load Speed	100-220/min
Impact Rate	1000-2150/min
Vibration Level	17.035m/s ²
Drilling Capacity in Concrete	55mm
Chuck Type	SDS-MAX
Models of Operation	Two: Rotary drilling; hammer
Cord Length	3m
Noise level	102.9db
Housing Material	Aluminum

Rotary Hammer 1700W-55mm

2755

Weight	12Kg
packaging	BMC + Color Box
Accessories	One set of carbon brushes, one tube of grease (30 g)
Variable Speed Control	6levels
