

Demolition Hammer

1300w

2800

- 1300W robust motor brings the impact force of 20J which is most suitable in vertical operations
- Compact streamline design makes it ideal for light chiseling applications in brick, light masonry and occasionally in concrete
- SDS toolholder with robust power can impressively enhance demolition performance
- High quality special grease lubricating system secures durability and longer lifetime
- Die-cast magnesium alloy housing enables light weight, superior heat dissipation and enhances body strength
- Extensive soft grip impressively reduces fatigue during long hours of working
- Switch lock function can protect the armature in continuous operations
- Adapted 40mm cylinder

Model	2800
Power	1300W
Voltage	220V
Impact Energy	20J
Max Impact Rate	2400BPM
Chuck Type	SDS Max
Frequency	50-60Hz
Weight	7.5kg
Supplied in	BMC
Includes	Auxiliary Ronix-design handle, Grease pot, wiping cloth, SDS Max 250x350mm flat chisel bit, SDS Max 250x350mm pointed chisel bit
