

## Mini Angle Grinder 900W- 125mm

# 3115

- Fast work progress and high overload capacity thanks to a powerful 900W motor.
- The safety protective cover prevents sparks and metal chips when grinding and cutting on the disc grinder. Equipped with a locking key that requires a double lock to use it for added safety
- Fast heat dissipation in the handle end extends the durability and service life.
- The power tool for grinders is suitable for daily grinding, cutting, grinding, and rust removal, and is suitable for materials such as PVC, metal, tile, etc.

|                    |  |
