

**Mini Angle Grinder**  
**115mm-750W**

**3120N**

- High-efficiency 750W powerful motor delivers up to 11000 no-load of speed
- High quality epoxy-coated field windings, makes the life time of the motor longer by preventing dust and small pieces from penetrating the motor windings
- Direct motor cooling system results in longer life time and brings more efficiency in various operation
- Auxiliary Ronix-design handle for low fatigue and more effective applications
- Easy change of cutting wheel

Model	3120N
Power	750W
Voltage	220-240 V
Frequency	50-60Hz
No-Load Speed	11000 RPM
Wheel Diameter	115mm
Spindle Size	M14
Noise level	90db
Body Material	PA6-GF30
Weight	1.7Kg
packaging	Color Box
Accessories	Carbon brush, SideHandle, Spanner,wrench,Guard
