

Plunge Saw

165mm

4350

- Clean cuts are also guaranteed in the area of edge-closing application. The parallel stop ensures straight work results
- Cutting depth and angle of inclination are tool-free and easy to adjustable
- The saw blade locking allows easy change of the saw blad
- The viewing window ensures better visibility in the cutting area
- Thanks to the vacuum cleaner adapter, the workplace remains clean
- The separately available guide rail system ensures even more precision.
- Special plastic holders are intended for fine adjustment of the guide rail
- The cable length offers a particularly large operating radius of up to four metres. The large handle is designed for fatigue - freeworking with the Einhell plunge saw
- Suitable for different materials such as solid wood, countertops, coated MDF panels, laminate etc.

Motor Type	Brushed Motor
Power	1200W
Voltage	220-240V
Frequency	50-60HZ
No-Load Speed	6000RPM
Surface Recommendation	Wood
Track Material	Aluminum
Track Dimensions	100x18.26x1.06cm
Cutting Depth With Track at 90° / 45°	54mm/38mm
Cutting Depth Without Track at 90° / 45°	59mm/42mm
Blade Dimensions	165x20x2.2mm
Product Dimensions	34.5x24.5x25mm
Blade Material	Alloy Saw Blade
Body Material	PA6+GF30, ADC12
Weight	5.2Kg
Sound Level	LpA=88,53dB(A) LwA, 99,53dB(A) Uncertainty, K=3dB(A)

Supplied in	Color Box
Includes	2pc hex key(S=3,S=5)/1 pair Clamp(2pcs)/1 set of connector
Track Length	1m
Net Weight	1.5Kg
