

Plunge Saw

165mm

4350

- Clean cuts are also guaranteed in the area of edge-closing application. The parallel stop ensures straight work results. Cutting depth and angle of inclination are tool-free and easy to adjustable
- The saw blade locking allows easy change of the saw blade. The viewing window ensures better visibility in the cutting area. Thanks to the vacuum cleaner adapter, the workplace remains clean
- The separately available guide rail system ensures even more precision. Special plastic holders are intended for fine adjustment of the guide rail
- The cable length offers a particularly large operating radius of up to four meters. The large handle is designed for fatigue-free working with the Einhell plunge saw
- Suitable for different materials such as solid wood, countertops, coated MDF panels, laminate etc

Model	4350
Motor Type	Brushed Motor
Power	1200W
Voltage	220-240V
Frequency	50-60HZ
No-Load Speed	6000RPM
Surface Recommendation	Wood
Track Material	Aluminum
Track Dimensions	100cm×18.26cm×1.06cm
Cutting Depth with Track at 90°/45°	54mm/38mm
Cutting Depth without Track at 90°/45°	59mm/42mm
Blade Dimensions	165 mm×20mm×2.2mm
Product Dimensions	34.5 mm×24.5mm×25mm

Blade Material	Alloy saw blade
Body Material	PA6+GF30,ADC12
Weight	5.2Kg
Sound Level	LpA=88,53dB(A) LwA, 99,53dB(A) Uncertainty, K=3dB(A)
Supplied in	Color Box
Includes	2Pc hex key(S=3,S=5)/1 pair Clamp(2pcs)/1 set of connector
Track Length	1m
Net Weight	1.5Kg
