

Electric Tile Saw 800W-200mm

**5620**

- The segmented cutting disc with 200 mm diameter
- with the 800W stone cutting machine, you can easily cut precise corner stones.
- The water tray can be easily cleaned by removing the rubber stopper
- The robust base of the stone cutting saw can be folded without the help of tools. The folded stone saw can be easily moved thanks to the transport wheels. So you can store the device to save space
- The tile cutter is not only easy to use with it, straight, miter and plunge cuts are no problem.
