

## Metal cutting saw 2600W 355mm

**5836**

- Powerful, high-performance 2600W motor ensures perfect functionality
- Anti-dust ergonomic switch for reducing dust penetration for more convenient use
- D-shaped handle enables better gripping and more control during various cutting applications
- Adjustable spark guard designed to divert sparks and ensure the safety of operations
- Spindle lock system for easy and fast wheel changing, and a safety mechanism
- Strong, precise work piece clamp improves working performance, especially in accurate cutting operations

Model	5836
Max Capacity in Round Steel	100mm
Max Capacity in Square Steel	100*100mm
Max Capacity in Rectangle Steel	100*120mm
Max Capacity in Angle Steel	90mm
Blade Diameter	355mm
Power	2600W
Voltage	220-240V
No load speed	1200RPM
Frequency	50-60Hz
Wheel Dimensions	355mm
Wheel material	Ceramic alloy
Net Weight	21Kg
Gross weight	23.1Kg
packaging	color box with full foam
