

Cut-off Saw
355mm-2400W

5902

- Professional heavy-duty 2300W motor ensures outstanding functionality and durability
- Anti-dust ergonomic switch for reducing dust penetration and more convenient use
- Superior performance enables continuous longtime jobs
- Adjustable spark guard designed to divert sparks and ensures safety of operations
- Fence adjustment up to 45 for accurate angle cuts, adjusts in 2 positions for different material sizes
- Spindle lock system for easy and fast wheel changing and safety mechanism
- D-shape handle enables better gripping and more control during various cutting applications
- Strong, precise work piece clamp improves working performance especially in accurate cutting operations

Model	5902
Power	2400W
Voltage	220-240V
Frequency	50-60 Hz
No Load RPM	3900 RPM
Blade Diameter	355mm
Max Capacity in Round Steel	130mm
Max Capacity in Square Steel	120mm
Max Capacity in Rectangle Steel	120×130mm
Max Capacity in Angle Steel	140×140mm
Weight	18Kg
Includes	Hex key, 355mm cutting wheel
