

Foldable Drywall Sander Kit

820W

6200K

- 820W high-efficiency motor delivers powerful sanding capability
- Adjustable rotation speed ranging from 600 to 1900 RPM
- Supplied with two adaptors for connectivity Comes with a dust collection bag
- Built-in sensor alerts the user when operational load exceeds safe limits
- Gradual motor start-up reduces stress on internal components and extends gear lifespan
- Swiveling sanding head adapts easily to different wall angles and surfaces
- Edge brush allows smooth sanding right up to walls without skipping surface area
- 360° soft bristle brush with integrated stabilizer reduces user fatigue and improves control
- Quick-change system enables fast and easy sandpaper replacement
- Telescopic pipe extends up to 165 cm, allowing access to tall walls and ceilings
- Foldable extension handle offers compact storage and effortless transportation
- Ergonomically shaped and lightweight body ensures better handling and reduced fatigue
- Integrated LED lighting improves visibility in dimly lit or enclosed areas
- The automatic extraction system actively removes dust during operation Built-in vacuum connection helps maintain a cleaner, healthier workspace
- Enables complete sanding of walls and ceilings with less effort and in reduced time

Model	6200K
Power Source	AC
Power	820W
Voltage	220-240V
Frequency	50-60Hz
Vibration	1.5m/s ²

Sound Level (LpA)	86dB
Sound Level (LwA)	94dB
Motor Type	Brushed Motor
Amperage Capacity	5A
Sanding Motion Type	Rotation
Sandpaper Material	Al2O3
Dimensions (Length×Width×Height)	1100×240×180mm
No-Load Speed	600-1900RPM
Grinding Pad Diameter	215mm
Tube Diameter	38mm
Length Range (without Extension Tube)	110cm
Length Range (with Extension Tube)	165cm
Weight	3.5Kg
Packaging	BMC
Accessories	1PC Dust Bag , 2PCs Connection Adapter (35mm,57mm) , 1PC Hose 2m , 1PC S5 Wrench , 8PCs Sanding Paper (150# 180# 240# 400# each 2PCs) , 1Pair of Carbon Brush
