

## Electric Wood Router 2100W

**7113**

- Professional heavy-duty 2100W motor ensures outstanding functionality to handle a wide range of woodworking applications
- High-speed efficient machine delivers up to 22,000 RPM for the fastest and cleanest cuts even on the tough hardwoods
- Variable speed setting from 9,000 to 22,000 RPM no-load of speed enables working at customized speeds in order to adapt to different kinds of applications
- Precision cutting depth adjustment mechanism ensures quick and accurate height adjustments
- Three-level stop to preselect up to 3 different routing depths in order to perform various applications
- Three kinds of collet chuck capacity (6mm, 8mm, 12mm) enables different operations
- High durability and accuracy obtained by using aluminum for body housing
- Aluminum die cast base plate plus durable steel springs ensures easy sliding and improves performance of depth adjustment
- Rubberized soft grip handles provides superior comfort, balance, and control even during extended jobs
- Replaceable, non-marring plastic base plate for protection of plunge base and smooth sliding on work surface
- Simple and efficient base lock system
- Suitable for a broad range of applications including precise bit plunging, edge forming, slot cutting, laminate trimming,...
- Spindle lock for easy and safe router bit change
- Dust plastic shield for controlling chips and dust wood ejection

Model	7113
Power	2100W
Voltage	220-240V
Frequency	50-60Hz
No-Load Speed	9000-22000RPM
collect size	6-8-12mm
Supplied in	Ronix Color box
Weight	7.65 kg
Includes	24mm open spanner, guide holder (fixed in machine), template guide, straight guide, trimmer guide, a pair of carbon brush, 6mm and 8mm Collect
