

20V Cordless Single Paddle Mixer

8606

- Powerful 20V Motor delivers high performance for efficiently mixing a wide range of materials, including
- Variable speed control allows for precise speed adjustment to match varying material viscosities and mixing requirements.
- Lightweight and portable design ensures easy handling and reduced fatigue, even during prolonged use.
- Prevents overheating, extends motor life, and ensures reliable operation under heavy loads.
- Prevents sudden splashing and material waste by gradually increasing speed.
- Ensures long-lasting performance and withstands tough mixing tasks.
- Helps remove material buildup and improves mixing efficiency.

Model	8606
Motor Type	Brushed
Voltage	20V
Battery Type	Lithium-ion
Battery Capacity	4000mAh
No-Load Speed	0-650/min
Speed Settings	Continuously Variable
Mixing Paddle Type	Blade
Mixing Paddle Diameter	100mm
Shaft Thread Size	M14
Noise level	96db
Housing Material	PA6-GF30
Handle Material	PA6-GF30+TPE
Weight	2.5Kg
packaging	color box

20V Cordless Single Paddle Mixer
