

Brushless Cordless Screwdriver

16V, 150N.m

8668

- The battery drill small can be converted into a straight type and a gun type. Adjust the ergonomic handle to your hand shape and make the electric torque screwdriver more flexible to handle different working scenarios, e.g. installation of the cabinet even slimmer and better to get into the corners
- The electric screwdriver is powered by a 16V- 2000 mAh battery. Rechargeable Li-ion battery charges completely in 1 hours, which ensures a strong, constant performance and a long runtime
- LED light and operating indicator Under the screw head is an LED light that can be switched on by pressing the start button and works well even in dark places. It can also be used as a flashlight in situations such as power outages or emergencies. The design of the charging indicator is designed so that the charging status is visible at a glance
- Comfortable thanks to battery level indicator and directional light

Model	8668
Weight	1.06Kg(with 1pc battery pack)
No-Load Speed	0-3200RPM
Impact Rate	0-4000BPM
Max Torque	150N.m
Battery Type	Lithium-ion
Accessories	2pcs battery packs/1pc charger/3pcs Hex shank twist/drill (Φ3.2mm/4.2mm/5.2mm)/ 2 pcs heel block (spacer)
Dimensions	117×182×62.7 mm
Body Material	PA6+GF30
Head Style	Hex socket
Battery Capacity	16V/2.0A.h
Head Size	6.35mm/1/4"
packaging	BMC
