

Brushless Cordless Impact Drill

16V, 50Nm

8669

- Cordless drill offers a maximum torque of 50 N.m and the 3 torque setting allows you to work precisely. This allows the battery screwdriver to easily meet a wide range of needs for drilling and screwdriving in wood, plastic, metal or other materials
- This compact cordless screwdriver has a large 3/8"(10mm) self-secure drill chuck with a double bearing system to help you quickly switch bits, which provides an excellent bit holding force
- The direction of rotation of the drill can be flexibly switched between right and left-hand race, Torque 50 N.m switch - LED battery lifetime indicator - 20torque selection for better control. Powerful LED Work Light - Soft Touch - Anti-vibration rubber
- The brushless motor can reduce friction and heat during use. The brushless motor does not produce a spark. The brushless cordless screwdriver offers up to 57% more runtime than brush motors, which improves the battery life and machine performance

Model	8669
Max Torque	50N.m
Chuck Type	keyless chuck
Includes	2pcs battery packs 1pc charger
Max Capacity in Wood	25mm
Dimensions	155x58.5x200mm
Max Capacity in Concrete	8mm
Battery Type	Lithium-ion
Weight	1.08Kg(with 1pc battery pack)
No-Load Speed	0-450RPM/ 0-2000 RPM
Chuck Size	10 mm
Body Material	PA6+GF30
Max Capacity In Metal	10mm
Battery Capacity	16V/2000mAh
packaging	BMC
