

Brushless Cordless Impact Wrench

500N.m - 1/2 Inch

8673

- Compared to brush motors, brushless motor technology can effectively save battery energy, extend the runtime by 25%, increase the lifetime by five times, the speed can reach 2500 rpm and the torque can be increased to 500 N.m, our brushless impact wrench can turn screws or tighten nuts at incredible speed.
- 1/2-inch quick chuck with integrated LED and reverse control
The compact design is suitable for tight areas and minimizes user fatigue. The impact wrench has a built-in LED light that improves visibility in closed work areas or dark environments. The forward/reverse switch facilitates snapping and screwing in.
- The speed of the impact wheel can be adjusted between 0 and 2500 rpm, depending on the pull-off force. The automatic start-stop system reduces damage to the nut. Variable speed controls are designed for a variety of screwdriving applications. Ideal for construction and repair work, furniture assembly and DIY work. Thanks to the wireless design, you can use it wherever you need it
- Make sure each battery has at least 1000 charge and discharge capacity.

Model	8673
Torque	500N.m
Dimensions	138x70x200.5 mm
Includes	2pcs Battery Packs 1pc Charger 1pc Sleeve Φ22mm 1pc Rubber Ring 1pc Sleeve Cylindrical pin
Weight	1.8Kg(With 1pc Battery Pack)
No-Load Speed	0-2500 RPM
Battery Type	Lithium-ion
Impact Rate	0-3300 BPM
Battery Capacity	4.0A.h/20V
Head Style	Square
Packaging	BMC
Bolt specification	M10-M24
Head Size	12.7 mm/1/2"
