

## Pruning Shear

# RH-3106

- Rust-resistant SK-5 steel blades which are extremely sharp and durable for easy and smooth cut
- Non-stick PTEF coated blades helps blade glide through wood
- Easy action hardened spring gently opens blades after each cut to minimize fatigue
- Ergonomic anti-slip PP/Fiberglass+TPR handle increases comfort and provides less fatigue during longtime working hours
- Large-sized pruner for general garden care with adjustable hand-opening size
- Soft grip handles provides comfort and control while the coated blade provides a smooth cutting action
- Sharp, blades ensure quick cuts, suitable for different pruning tasks
- Locking-mechanism which can be operated conveniently in either right or left hand use and never be accidentally scratched when pruner is locked
- Made In Taiwan

Model	RH-3106
