

Air Hammer Kit
90PSI

RA-1701

- Air tool has the ability to perform with maximum power for exhaust system work, bolt cutting or bushing driving. Air chisel has a standard round shank, 3/4inch bore and a teasing trigger for slow start-up and precise control.
- The air hammer, efficient and safe to change chisel head with built-in strong spring which effectively alleviates vibration.
- The air hammer kit comes with 4 types of chisel retainers.
- This heavy duty air hammer could rapidly chip, shovel, cut of metal, weld slag, tiles or bricks, the cylinder is made of alloy steel which is strengthened, the piston is heat-treated and more resistant to high temperature.
- The impact frequency of this air tool is very fast, up to 4500BPM, and the power output is stable, smooth and fast. The high-quality and strong spring of the air hammer chisel retainer can alleviate the vibration caused during operation.
- This air hammer set includes 1pc 150mm air hammer, 4pcs different types of air hammer chisel bits
- Ergonomic handle for the user's ultimate comfort; 43mm piston stroke

Model	RA-1701
Power source	Air
Frequency	50-60Hz
Piston storke	43mm
Air pressure	90Psi
Air inlet size	1/4"
Noise level	96.9db
Maximum bit holder	10mm
Speed	4500Bpm
Material	Aluminum
Weight	1kg
Supplied in	BMC+ Color box
Include	1pc oil pot 4pcs chisels 1pc spring 1pc quick coupler 1pc mini oiler
