

Air Riveter

1045kg.f

RA-2702

- Powerful durable, high-speed production tool enables a wide variety of operations
- Quick release air valve lets cylinder to return quickly for high-speed assembly operations and prevents overloading for longer lifetime
- Hardened high-quality jaws ensure maximum efficiency and durability
- Applicable to a variety of industries such as decoration industry, automobile manufacturing, electronic manufacturing, machinery manufacturing, etc.
- Includes 4 nose pieces 2.4, 3.2, 4.0, 4.8mm
- Good hardness, large pulling force plus 16mm working stroke makes it a perfect machine which is suitable for rivets of different lengths
- Effortless trigger feature eases the repetitive action of popping rivets in different kinds of jobs
- Gets into hard-to-reach areas and performs well at any angle

Model	RA-2702
Power	1045 kg.f
Max Capacity	4.8mm
Stroke Length	16mm
Air Pressure	5.5-6 bar/79-87 Psi
Air Inlet	1.4 PT
Average Air Consumption	1.48 Liter/Stroke
Weight	1.5kg
Supplied in	Ronix color box
Includes	Oil bottle, (2) Spanners, (2) Extra jaws, (1) Jaw pusher, (1) Jaw case, Jaw pusher spring, (4) Nose pieces
