

**Multi function combination plier**

**8 inch**

**RH-1195**

- The 8 inch pliers can be used as wire strippers as well as wire cutters. Stripping: suitable for American standard(AWG): 8/12/14/16/18
- Metric diameter(mm): 3.0/2.0/1.6/1.3/1.0 wires
- The overall hardness of the combination pliers is 42-45HRC, and the hardness of the cutting edge is 60-62 HRC
- Durable Nickel Chrome Steel Cr-Ni construction, Induction hardened cutting edge stays sharper, longer.
- Ergonomic grips have a two-tone, anti-slip surface to maximize comfort and provide a secure grip
- The pliers have the functions of fastening, clamping, winding, cutting, crimping, and stripping wires
- Durable side-cutting pliers can cut steel wire, copper wire, iron wire and other common metals
- Made of premium 55# carbon steel, which is integrally heat-treated and forged with a blackened surface to ensure higher hardness, toughness and durability as well as stronger corrosion resistance, anti-corrosion rust.
- Durable side-cutting pliers can cut steel wire, copper wire, iron wire and other common metals
- Max cutting diameter: 3 mm steel wire.

Model	RH-1195
Size	8"
Maximum jaw opening range	30mm
Crimping size	0.75-6mm
Wire stripping range	American standard(AWG): 8/12/14/16/18 metric diameter(mm): 3.0/2.0/1.6/1.3/1.0
Body material	55#Steel
Handle material	TPR
Spring material	65Mn
Weight	328g
Packaging	Blister card
