

Jig saw blade

RH-1300

- Unique design in the head part to apply more pressure
- Ergonomic body design for ease of long-term use
- Made of high quality material and resistant and anti-vibration handle
- Excellent leverage power to achieve greater effectiveness
- The jaws are designed with ivory and hard work which creates a very high resistance to pressure wear and twisting.

Model	RH-1300
Length	150mm
Head bending angle	45Degree
Body Material	55# carbon steel
Handle Material	TPR
Maximum opening rate	60mm
Blade Material	55# carbon steel
Weight	145g
Supplied in	Poly bag
