

Water Pump Plier

RH-1430

- Constructed of chrome vanadium (CR-V) steel for strength, durability and longevity
- Patented reinforcing edge minimizes stress breakage
- Chrome finish prevents rust and corrosion while the slim profile and hardened gripping teeth provide an excellent grip for one-handed wrenching action in tight spaces
- Automatic adjusting system can adjust the lower jaw fast and easy by a simple push of a button which enables optimum adjustment to different sizes of workpieces
- Can be adjusted to 12 positions to meet any size you may be needing for your application
- Self-locking teeth to avoid slipping out of place while working
- Special jaw design accommodates many shapes
- Anti-pinch, non-slip handles provide comfort, control, and less hand fatigue
- Can be used for loosen, stuck or corroded nuts, bolts, and pipes or to clamp, grip, and twist various fasteners and fittings
- Ideal for industrial or home use, this unique V groove plier tool can grip flat, round, hexagonal, and square pieces firmly
- Ergonomically designed offset head for greater leverage

Model	RH-1430
