

Sheet Metal Locking Pliers

RH-1440

- Manufactured from high quality CS material for highest resistance during industrial applications
- It is ideal for tasks including holding, crimping, modifying, bending or forming sheet metal
- Advanced design improves performance and convenience
- Induction hardened jaws according to DIN standard increases abrasion resistance and results in better gripping of different shapes
- Operative trigger release system delivers maximum locking force
- Ergonomic design provides extra comfort and reduce hand fatigue

Model	RH-1440
Product Dimensions	8 inch
Jaw Dimension	78mm×44mm×3mm
Material	CS
