

**C-Clamp Locking Pliers**

**RH-1441**

- Manufactured from high quality CRV material for highest resistance during industrial applications
- It is ideal for tasks including holding, clamping in woodworking and sheetmetal usage
- Advanced design improves performance and convenience
- Induction hardened jaws according to DIN standard increases abrasion resistance and results in better gripping of different shapes
- Operative trigger release system delivers maximum locking force
- Ergonomic design provides extra comfort and reduce hand fatigue

Model	RH-1441
Product Dimensions	11 inch
Jaw Capacity	100mm
Jaw Material	CRV
