

Hand Riveter

Optima

RH-1601

- Manual heavy duty rivet tool provides portable fastening, includes 4 interchangeable heads 2.4, 3.2, 4 and 4/8mm, to provide you with everything you need for riveting
- Designed to work with 2/4 in. to 4/8 in. rivets for general purpose rivet jobs
- The rivet system features easy loading and ejection
- A spring-loaded handle that makes loading rivets simple and a slip resistant grip for precise rivet placement
- Hot-forged steel construction for durability
- Extended nose makes working easier in hard-to-reach places and a great tool for general purpose rivet tasks, such as gutters, furniture and canvas works
- Professional riveter can handle all three type of rivets: aluminum, steel, and stainless steel rivets
- High-quality PVC-covered grip makes it anti-slip and provides the users with ease and comfort
- New optima design for better functionality
- The ergonomic long arm handle design offers enough force to easily rivet the nut without any problem
- Made in Taiwan
