

Wire Stripper
6 inch

RH-1806

- Designed for stripping solid, stranded, or finely stranded conductors with standard insulation
- Equipped with a V-shaped cutting edge, suitable for wires and strands up to a maximum diameter of $\varnothing 5$ mm or a conductor cross section of 10mm^2
- Features an adjustable screw for precise adjustments to the required wire or strand diameter
- Includes an opening spring for easier operation and improved efficiency
- Handles are ergonomically shaped with SoftGripp multi-component sleeves for added comfort and control
- SoftGripp handles include a SystemSocket for holding optional accessories, such as the easily attachable SystemClip for fall protection
- Constructed from drop-forged, oil-hardened tool steel for exceptional durability and strength

Model	RH-1806
Size	6 inch
Max Cutting Cable Diameter	5mm
Stripping Capacities	0.5-10mm ²
Weight	165g
