

Multifunction Wrench 6Inch

RH-2456

- Adjustable 7-15mm jaw (6-inch size) fits prism, square, diamond nuts, and more.
- Teeth on three sides made of hardened chrome vanadium steel for strong grip and high durability.
- Built-in self-locking mechanism boosts ease of use and improves work efficiency.
- Double-threaded design offers superior grip, anti-slip performance, and fast adjustment.
- Durable 40CR steel tail functions as a pry bar or chisel for extra utility.
- TPR-coated handle ensures a secure, comfortable grip to reduce fatigue and improve control.
