

Multifunction Wrench 12Inch

RH-2459

- Adjustable 19-43mm jaw (12-inch size) fits prism, square, diamond nuts, and more
- Teeth on three sides made of hardened chrome vanadium steel for strong grip and high durability
- Built-in self-locking mechanism boosts ease of use and improves work efficiency
- Double-threaded design offers superior grip, anti-slip performance, and fast adjustment
- Durable 40Cr steel tail functions as a pry bar or chisel for extra utility
- TPR-coated handle ensures a secure, comfortable grip to reduce fatigue and improve control
