

Test Pen
200mm

RH-2727

- Multi-color electrometric voltage light test pen designed on the basis of Ronix standards for high-efficiency electrical functions
- The rods manufactured from high-quality Chrome vanadium steel which secures high performance in long-term usage
- Body made of AS for higher safety during electronic operations
- High-quality xenon lamp
- Two kinds of applications, one for measuring circuit electrical pen and the other for screwdriver
- Working voltage between 100 to 500V
- Electronic safety resistor secures safety of operation
- Dual use function cap for more efficiency
- Equipped with double ended screwdriver PH and SL
- Meets BS, EN & ASDN standards

Model	RH-2727
Product length	200 mm
Product Diameter	6.35 mm
PH power Bit	PH2
SL power Bit	6
Body Material	AS
Rod Material	Chrome vanadium steel
Lamp Type	High quality xenon lamp
Lamp Resistor	1.2 MΩ
Voltage range	100-500 V
Touch pole material	Chrome vanadium steel
Net Weight	78gr
Supplied In	Blister card
