

German Pruning Shear

22cm

RH-3165

- The fully forged, sturdy metal body is complemented by a durable sharp blade and a hard chromed counterblade
- A forged sapgroove in the counterblade assists self-cleaning and allows permanently clean cutting without sticking
- Ideal for the professional user and hobby gardener at the same time
- Easy action hardened spring gently opens blades after each cut to minimize fatigue
- Easily-opened locking mechanism keeps the sharp blades securely closed when not in use which minimizes the accidental injuries
