

Granite Cutting Disk

180mm

RH-3503

- Manufactured by hot press production process with fully automatic machines which ensures high performance and efficiency
- High quality raw material formulation of diamond tips minimizes the friction and delivers a faster and cooler cut
- 10mm height of cutting rim guarantees an optimum life time
- Manufactured by high quality material which optimizes cutting performance and ensures durability
- Ideal for all types of granite
- Different sizes that will cover all your fabrication cutting needs
- Suitable for both wet and dry cutting
- Meets TUV and CE standards

Model	RH-3503
Segment Height	10mm
Shaft Diameter	22.2mm
