

Self priming pump
2HP

RH-4025

- Pump with compact dimensions and capable of generating high heads
- Suitable for clean water and free of solids and abrasives, non-visous, nonaggressive, non-crystallised and chemically neutral, clean liquids
- Properly in domestic, small industrial, irrigation of gardens and allotments usage
- Provides with Thermal protector and insulation Class B to ensure motor long life ability for suction up to 8m
- More efficiency by using Ceramic/Graphite mechanical seal, brass impeller cast iron pump housing

Model	RH-4025
Power	2Hp
Voltage	220V
Frequency	50Hz
Min.Flow	2.4m ³ /h
Max. Flow	9.6m ³ /h
Min.Head	3m
Max. head	48m
Inlet/outlet port diameter	1 1/4X1In
Suction heigh	8m
Speed	2850RPM
Max. liquid temperature	60
Max. Ambient temperature	40
Working Pressure	4.8BAR
Protection level	IP44
Insulation Class	B
Pump housing material	CAST IRON
Motor housing material	ALUMINUM
Mechanical seal material	Ceramic/Graphite
Motor protection	WITH

Coil winding material	COPPER
Impeller material	BRASS
Shaft material	316+45
Weight	26.2Kg
Supplied in	honeycomb carton
